COMPANY PROFILE

Torpedo Shoes Pvt. Ltd. is one of the major Manufacturers & Exporters of Leather and Industrial Safety Footwear. Our range represents a perfect blend of technological innovation, quality material and expertise. Our Footwear collection is robust, comfortable and reliable, which gives customers a unique confidence. In order to offer our clients the best possible products, we maintain high standards, thorough manufacturing work and best industry practices. With the help of modern manufacturing facilities, we have been able to design & manufacture excellent quality Leather Footwear and Safety Shoes etc. Also, we have skilled & experienced persons who are expert in operating the latest machines, and are aware of the prevailing trends of the market.

TIME LINE

New Light Group is founded in 1960 in the city of Kanpur, one of the major industrial center's of India situated in the state of Uttar Pradesh on the banks of holy river Ganges.

The Group started it's business with raw hides but soon diversified into the business of processing vegetable tanned sole leather and harness leather. By 1970 the company was exporting it's products to Middle East Countries.

In the 80's the company entered into the domain of **shoe leather**. With it's new product very soon it was knocking doors of European market. By early 1990's with the onset of Indian Government relaxed market policies the group entered into the field of manufacture of shoe uppers.

In the later part of decade, the group sensing growing demand in the European market, brought a new end product into it's umbrella - the **FOOTWEAR**. By the turn of the century, the company further diversified into upholstery leather.

And yet, over the past 5 decades, we are doing just what we had started with : building on our reputation for quality, performance and durability in all our leather products.

We serves customers in more than 26 countries spanning Asia, Europe and North America through a strong network of sales team and agents spread all over the globe.
